

FemtoBlanc

First and Last in Ultrafast.

Dr. Michael B. Orozco – Director of Research & Development

Dr. Michael Orozco, serves as the Director of Research and Development at FemtoBlanc. Michael has led interdisciplinary teams in the development of ultrafast lasers, reliability efforts and manufacturing streamlining. His experience in ultrafast spectroscopy and laser development allows to him to quickly transform ideas from concept to reality, with manufacturability in mind. Prior to FemtoBlanc, Michael was a Senior Scientist in the Ultrafast Laser group at Alcon Research, where he led a team of dynamic engineers in the development of a compact and robust femtosecond oscillators as well as reliability efforts on the LenSx Laser Cataract system.

Michael graduated with a B.S. in Chemistry from the University of California and then proceeded to the University of Michigan, Ann Arbor for his Ph.D. in Physical Chemistry.
